Pollard Banknote is a leading lottery partner to more than 50 lotteries worldwide, providing high quality instant ticket products, licensed games, and strategic marketing and management services for both traditional instant games and the emerging iLottery space of web, mobile, and social channels. The company is a proven innovator and has decades of experience helping lotteries to maximize player engagement, sales, and proceeds for good causes. Pollard Banknote also plays a major role in the charitable pull-tab and bingo markets in North America. Established in 1907, Pollard Banknote is owned approximately 73.5% by the Pollard family and 26.5% by public shareholders and is publicly traded on the TSX (PBL).

SOFTWARE DEVELOPER

POSITION DESCRIPTION:
This full time permanent position offers a skilled professional the opportunity to play a key role in the design, development, testing, and support of various applications within our IT Development group. The successful candidate will have the opportunity develop new applications, analyze current software and to make recommendations for innovations.

KEY RESPONSIBILITIES:
- To deliver fully functional software solutions that meet all business requirements
- Analyze client requirements and recommend solutions and strategies to meet those requirements, ensuring deadlines are met
- Create innovative solutions to challenging problems which will facilitate the continuous improvement of our lottery production processes
- Provide development and support for Java applications used by internal departments

QUALIFICATIONS:
- Bachelor’s degree in computer science, engineering, or other related degree. Will consider candidates with a combination of experience and education
- 2 to 5 years of experience with MySQL, Java application development and database design and development required
- Proficient with Linux and windows server administration
- In depth knowledge of multiple programming languages such as C++, XML, Bash, JavaScript, HTML
- Exemplary planning, prioritizing and organizational skills to handle multiple priorities and meet deadlines
- Knowledge of software development life cycles and project management principles
- High technical aptitude regarding hardware devices, operating systems and applications
- Strong written and verbal communications skills
- Ability to progress projects from conception to implementation with minimal supervision
- Ability to apply strong analytical skills when gathering information and determining requirements
- Innovative problem-solving skills
- Experience with supporting end users considered an asset

Pollard Banknote offers a challenging, team-oriented environment, competitive compensation, profit sharing program, company pension and opportunities for professional development. Interested candidates are encouraged to submit a cover letter indicating competition number and outlining fit and salary expectations along with a résumé to:
